

OTC COVID-19 TEST COVERAGE

What you should know

Beginning on January 15, 2022, members are able to purchase at-home, over-the-counter (OTC) self-administered/self-read COVID-19 tests at no cost to you. Information about coverage for OTC tests is provided below.

- ☑ You can purchase self-administered/self-read OTC COVID-19 tests at participating pharmacies in the ClearScript pharmacy network. You can find a participating pharmacy by visiting our Member page at clearscript.org/members.
- ☑ You do not need to have a prescription to purchase an OTC test. There are also no prior authorization or other clinical assessments required to purchase a test.
- ☑ You will not be charged a copay (\$0 copay) or other out-of-pocket costs if you purchase your OTC test at the pharmacy counter in a participating network pharmacy. Simply present the test and your member ID card at the pharmacy counter to have the claim process through your pharmacy benefit.
- ☑ Your pharmacy benefit will cover 8 free OTC, at-home tests per month (30-day period) for each covered person. However, if your doctor prescribes your test after a clinical assessment, there is no limit.
- ☑ Coverage applies to OTC, at-home tests authorized, cleared or approved by the FDA.
- ☑ You may purchase and pay the full retail cost for a test at locations other than a participating pharmacy and request reimbursement from the plan through the Direct Member Reimbursement (DMR) process. This includes purchases at non-participating retailers, online, or through check-out registers at the front of a pharmacy store.
- ☑ If you use the DMR process, your pharmacy benefit will reimburse you for up to 8 tests per month for each covered person, for up to \$12 per test (less if the test costs less than \$12). If there is more than one test in a package, you will be reimbursed a maximum of \$12 for each test.
- ☑ You can begin the DMR process by downloading a Manual Claim Form on our member web page at clearscript.org/members or you can request a form by contacting our member service center at the number on the back of your ID card. Please follow the form instructions carefully.
- ☑ If your claim is processed for \$0 copay at the pharmacy or if you request reimbursement through the DMR process, you should not seek reimbursement through a health FSA or HRA and you should not use a health FSA or HRA debit card to purchase the OTC tests. You cannot be reimbursed more than once for the same medical expense.
- ☑ If you have questions, contact the number for member services on the back of your pharmacy benefit ID card.
