

## Pharmacy Benefits designed for School Districts

**ClearScript has been working with school districts for 20 years and we have a deep understanding of the complexity and high standards of school district benefit plans and union benefit offerings.**

ClearScript tailors pharmacy benefit plans to help school districts save money, preserving taxpayer funding for students and keeping your employees and their families' well-being at the forefront.

As part of the large nonprofit **Fairview Health Services** and its award-winning **Fairview Specialty Pharmacy**, we are a mission-driven organization rooted in the values of care, service, and community. Our programs are clear and easy to understand, and our health-system-backed expertise provides high-value pharmacy benefits that do more for your members.

### World-class partners for quality and access

By selecting ClearScript as your PBM, you are choosing cost-effective pharmacy solutions that provide long-term health benefits for your members – a valuable asset for those with healthcare reimbursement accounts. Whether you have an HRA, HSA, FSA, or Voluntary Employee Benefit Account (VEBA), we help your members to make the most of their benefit dollars.

With Fairview Specialty Pharmacy, our URAC-accredited specialty pharmacy partner, you'll have access to the nation's largest specialty pharmacy operated by an academic health system rooted right in the Twin Cities. And our mail service program provides a convenient option that can reduce costs for both benefit plans and their members.

### Transparency: empowering savings

We've always been transparent with our contract terms, pass-through discounts, and rebate arrangements, so you know the true cost of your pharmacy benefit.

With ClearScript, you also have a partner in fulfilling your Health Insurance Transparency and Accountability (HITA) statutory requirements. We fully support you and your third-party partners by sharing data, allowing you to understand the pharmacy costs in your benefit plan, and helping to make your RFP process go smoothly. Our transparency empowers you to make informed decisions that result in plan savings. In 2021, we helped our clients experience an average of \$84.39 PMPM (per member per month) and **even helped one school district reach \$60.52 PMPM.**

“

*ClearScript is always seated at the table with us to bring recommendations to offer a more cost-effective and better pharmacy benefit program for our members.*

– HR Director, Minnesota-based public school

”

### Hospitality & White-glove services

ClearScript's account services team is unlike traditional PBM account management models. We're the ones who call you back and go the extra mile for you and your members. Our experienced consultative account services professionals understand the dynamics of working with school districts and union organizations. They monitor your plan utilization, inform you of industry trends, and offer data-driven recommendations for managing your pharmacy spend.

### Helping members, helping the plan

Given the cost of specialty drugs and overall rising pharmaceutical costs, ClearScript offers alternate funding services for patients to access the drugs they need at affordable prices. Our team of experts in specialty pharmacy assistance is known for going above and beyond to find cost-effective solutions that truly impact members' health outcomes.

### Free Assessment

To see exactly how much value ClearScript can add to your benefit plan, we'll start with a free assessment. Our unique, measurable optimization process analyzes your existing program and pinpoints gaps and savings opportunities. We will then make specific recommendations to improve your program, reduce costs and optimize the health of plan members.
