

ClearScript TribalRxSM Solutions: your clear choice for pharmacy benefit management

With years of experience in pharmacy benefit management for tribal nations, ClearScript respects the sovereignty of indigenous peoples and understands the Native American healthcare delivery system and the complexity of tribal programs.

ClearScript is the most cost-effective PBM for providing high-performing programs in markets that are often underserved such as Tribal Nations. **We are fully aware of the limited nature of your federal dollars, as well as the importance of making the most of your scarce financial resources.** ClearScript will help you extend those federal resources through programs that contain costs and make your communities healthier.

We support Tribal Members

As part of a non-profit health system, Fairview, and nationally recognized Fairview Specialty Pharmacy, we are a mission-driven organization rooted in values of care, service, and community. We support members who need high-cost specialty medications and empower them to manage their health better. We offer high-touch, one-on-one counseling, prescription monitoring, and provide personalized guidance to help members overcome barriers to medication adherence.

Support for your community

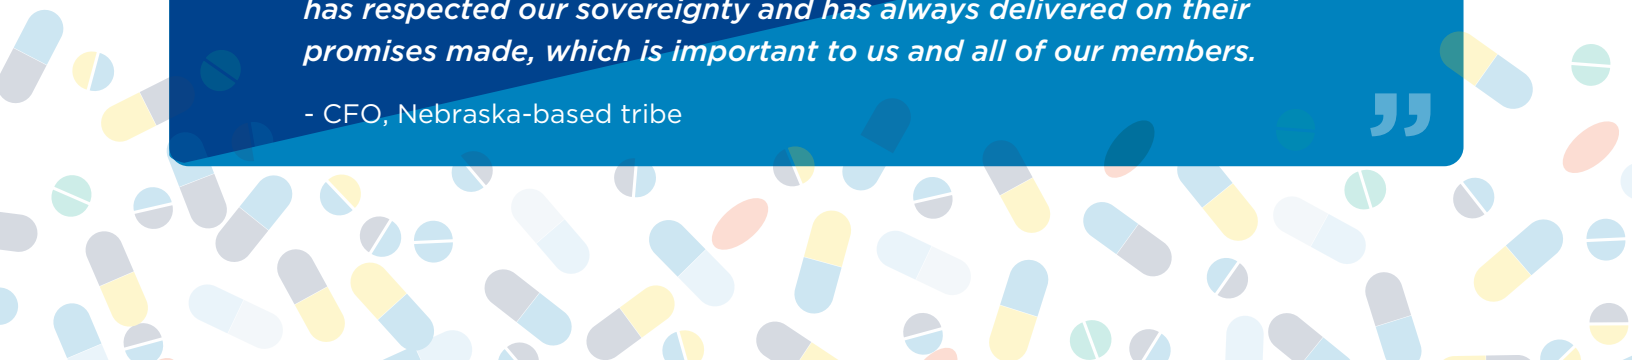

At ClearScript, we pride ourselves on our partnerships and our integrity in serving our Tribal Nations partners and their communities each day. We believe we can make a difference in your community by giving back to the Tribal Nations we serve. We offer programs, provide grants, and make ongoing charitable donations to support and celebrate the people in your communities.

When it comes to choosing a pharmacy benefit management company, the clear choice is ClearScript and its family of TribalRx solutions for Native American organizations.

ClearScript understands our Tribe and our goals of improving the health of our community and helping us control benefit plan costs. ClearScript has respected our sovereignty and has always delivered on their promises made, which is important to us and all of our members.

- CFO, Nebraska-based tribe

ClearScript TribalRxSM Solutions

PBM solutions tailored to the unique needs of tribal organizations, communities, and Native American owned businesses

What you see is what you get

ClearScript is committed to transparency and accountability. We fully disclose fees and do not engage in spread pricing. We don't take hidden profits that increase the total net cost of drug benefit plans, unlike many PBMs and 100% of network drug discounts are passed on to you.

Plan savings - we're appropriately aggressive

We provide aggressive rebate capture and share it with you. And we go beyond rebates by managing the entire drug benefit to reach the lowest net cost. Every recommendation we make and every program we implement by expertly balancing cost savings and member health.

Connected to world-class partners

Fairview Specialty Pharmacy

Rare Disease Pharmacy
Center of Excellence

As part of a large nonprofit health care system, we have exceptional clinical experience and access to innovations in drug therapy management. With Fairview Specialty Pharmacy, our URAC-accredited specialty pharmacy partner, you'll have access to the nation's largest specialty pharmacy operated by an academic health system. And our mail service program provides a convenient option to reduce costs for your plan and for your members.

20% savings

for plans switching from other PBMs in 2021

extending federal resources

Respecting
Sovereignty

hospitality
you deserve

Programs and services that make a difference.

Our proven pharmacy programs help manage to lowest net cost while meeting medical challenges like substance abuse and diabetes.

340B Program Support

Formulary management provides overall quality of care to members while helping reduce plan drug spend.

Mail service provides up to 6% plan savings and reduces member copays by nearly 17% on qualified medications.

Coupon coordination of benefits

saves participating clients 6%-8% on specialty drug costs.

Higher dollar exclusion saves an average of \$3-\$5 per member per month for participating clients by excluding coverage for high-cost medications when clinically appropriate lower-cost alternatives are available.

Narcotics Drug Utilization Review

Program helps your plan promote appropriate utilization of medications with a high potential for misuse.

Partial fill program helps control the cost of expensive specialty medications while promoting better health outcomes.

Utilization management programs

deliver average ROI savings of 30:1.

And many more!

Free Assessment To see exactly how much value ClearScript can add to your benefit plan, we'll start with a free assessment. Our unique, measurable optimization process analyzes your existing program and pinpoints gaps and savings opportunities. We will then make specific recommendations to improve your program, reduce costs and optimize the health of plan members.
