

## What is the ClearScript Standard Formulary?

The ClearScript Formulary is a list of drugs selected by physician and pharmacist subject matter experts who collaboratively support the Pharmacy and Therapeutics (P&T) Committee. Coverage for the drugs included on the ClearScript Formulary is determined by your benefit plan design. It is important to note that this formulary is not a complete list of medications and not all listed drugs may be covered by your plan. Please refer to the benefit documents provided by your employer or health plan for information on your specific benefit coverage and copays. You may also contact the Member Service Center at the number on the back of your ID card for more information.

## How is the formulary and clinical review criteria developed?

The formulary and clinical review criteria are developed based on the recommendations of the P&T Committee. This committee meets quarterly to review and select drugs and clinical criteria for additions to the formulary based on drug safety, effectiveness, scientific evidence and standards of practice, therapeutic need, and cost.

## Can the Formulary (drug list) change?

Drugs may be added or removed from the formulary during the year. The plan may notify affected members if a drug is removed from the formulary, moves to a higher cost-sharing tier, or when prior authorization and/or step therapy requirements are added. If the Food and Drug Administration (FDA) deems a drug on the formulary to be unsafe or the drug’s manufacturer removes the drug from the market, the plan will immediately remove the drug from the formulary.

## What are generic drugs?

The plan covers both brand name and generic drugs provided they are prescribed per FDA approved indications and in accordance with your plan’s benefit design. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs. Generic drugs appear in the formulary listing with all lower-case letters and *italicized* (i.e., *terbutaline oral tablet 2.5 mg*). Brand drugs appear in the formulary listing with all upper-case letters (i.e., DIPHEN ORAL ELIXIR 12.5 MG/5ML).

## Are there any restrictions on coverage of drugs on the formulary?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits are noted throughout the Formulary listing using the following symbols:

Symbol	Guideline	Description
AGE	Age Restriction	Coverage depends upon member age
PA	Prior Authorization	Requires specific physician request and clinical criteria be met for prescription to be covered
QL	Quantity Limit	Prescription quantity limits for specific drugs and/or time period needed for coverage
ST	Step Therapy	Coverage requires a trial of certain clinically appropriate alternative drug(s) before obtaining the prescribed drug
SP	Specialty Drug	Coverage may require dispensing from a specialty pharmacy. Specialty copay/coinsurance applies according to benefit plan

Drugs requiring prior authorization or step therapy may require your doctor to request a clinical review to determine coverage. Your doctor can submit a request for clinical review on your behalf by contacting the number on the back of your ID card or by completing the Authorization Request form found on the ClearScript.org member page.

Clinical review decisions are based on criteria developed by peer – reviewed publications, evidence-based research, and widely accepted medical practice.

## Tier Benefit Design

A tier benefit design is where you are responsible for a portion of the cost of a prescription drug based on the drug's tier and copayment or coinsurance. Your health plan or employer determines your out-of-pocket costs or copayments for each tier. If you are prescribed a drug on a higher tier, discuss any covered lower tier options with your doctor to help save on drug costs.

Specialty drugs may be covered at a higher copay or coinsurance.

- Tier 1: Generic medications
- Tier 2: Preferred brand medications
- Tier 3: Non-preferred brand medications
- Tier 4: Specialty generic medications
- Tier 5: Specialty preferred brand medications
- Tier 6: Specialty non-preferred brand medications
- ACA Tier: Per the Affordable Care Act (ACA), some medications qualify as preventive under the Essential Health Benefit (EHB). **ACA Tier** indicates the medication qualifies as preventive under the ACA/EHB.

For plans with an ACA benefit, these medications are covered at \$0 copay. If your plan does not participate in ACA coverage, some drugs in this tier may not be covered by your plan.

## How do I fill my specialty medication?

Specialty medications are typically used to treat rare or chronic conditions and often require special handling. They cost more than other drugs and may have the highest copayment applied.

To ensure the safest, most clinically appropriate and cost-effective dispensing of these medications, your plan may require you to fill your prescriptions at a designated specialty pharmacy. Specialty pharmacies provide personalized care and offer convenient delivery to your home or other approved location.

Please refer to your benefit documents for details regarding Specialty Medications or call our Member Service Center at the number on the back of your ID card to find out where you can have prescriptions for specialty medications filled.

## General Exclusions:

Many plans have specific benefit inclusions, exclusions, copayments, or a lack of coverage, which are reflected in other Plan Benefit Documents.

The Formulary applies only to outpatient drugs provided to members and does not apply to medications used at inpatient settings. Please refer to your benefit plan documents for details regarding benefit exclusions or call our Member Service Center at the number on the back of your ID card.

Examples of benefit exclusions include:

- > Over the Counter (OTC) medications
- > Anti-Obesity drugs
- > Medical food/nutritional supplements
- > Non-Diabetic supplies/Diagnostic supplies/Ostomy supplies/Devices
- > Disposable Needles & Syringes (Non-Insulin related)
- > Any drug products used for cosmetic purposes
- > Experimental drug products or any drug product used in an experimental manner
- > Repackaged drugs and institutional use drugs (e.g., hospital use)
- > Lifestyle drugs (e.g., sexual dysfunction, infertility)
- > Non self-administered injectable drug products

## What if a drug is not on the Formulary?

If a drug is not included on the formulary, you can:

1. Contact ClearScript at the number on the back of your ID card to request a list of similar drugs covered by the plan. Show it to your doctor and ask the doctor to prescribe a similar covered drug that that is determined by your doctor to be an appropriate alternative drug.
2. Contact your plan to determine your options.

## Can I appeal a coverage decision?

If you are not satisfied with a coverage decision, you have the right to file an appeal according to the process outlined in your plan's Summary Plan Document. Please refer to your benefit plan documents for information on your Rights of Appeal, how to file an appeal, the appeal process and the appeal levels available to you.

If you decide to file an appeal, you will be asked to provide written information to support your appeal. The appeal will be reviewed by different individuals than those who made the original decision.
